

Product Picture

**Complete certifications:
UL/FCC/RoHS/IP65/DLC Premium certificate**

Product Features

- 1.The appearance adopted stream-line design.
- 2.Input voltage: AC120-277V / AC120-347V / AC277-480V.
- 3.IP65 internal driver.
- 4.The driver is attached on the lamp housing tightly,
driver temperature reduce 5-10 °C.
- 5.Die-casting cooling design, better cooling light quality.
- 6.No UV or IR in the beam.
7. Photocell sensor and Surge protector is available.
- 8.Easy to install and operate.
- 9.Light is soft and uniform, safe to eyes.
- 10.Energy saving long lifespan.
- 11.Instant start, NO flickering, NO humming.
- 12.Green and eco-friendly without mercury.

Product Applications

LED Wall Pack series can be widely used in indoor or outdoor lighting (Wet location), like mechanical or electronic rocessing workshops, storage warehouses, house, building exterior, steel mills, toll booth, waiting rooms, the platforms of railway station, indoor stadiums etc.

Specifications

Size:Inch/mm

Structure Features
Shell materials: Aluminum & PC/Glass.
Finish: Brown

Technical Parameters
